Message

Skill is the unified force of passion, intellect and experience. Under the visionary leadership of Hon'ble Prime Minister Shri Narendra Modi ji, skill development is laying the foundation of a self-reliant and developed India.

Initiatives like Skill India, Digital India and Start-Up India aim to equip India's youth and workforce with the skills needed to thrive in a rapidly evolving global economy.

It is heartening to know that Atal Bihari Vajpayee Skill University has been established in the cherished memory of our revered former Prime Minister *Bharat Ratna* Shri Atal Bihari Vajpayee ji at Gangtok, Sikkim. I hope that this institution would uphold Late Atal ji's vision of Nation Building and impart industry relevant education and skill training to its students.

My best wishes for the entire endeavour.
